# 1. What are they?

AsciiDoctorJ Panels are a way of creating a panel that is clickable. Now you can create a set of panels that links to various contents, an alternative way of building links.

## 2. How to use?

AsciiDoctorJ Panels are built using a block processor. SO you will need to create blocks to visualize them. For the most part, the body of the panel is built using a Kotlin DSL.

### 2.1. First Example

The first type of panels is just panels with a list of panel objects. See example below

```
1 panels {  
2     panel{  
3         link = "http://www.google.com"  
4         label = "Google Search"  
5     }  
6 }
```

Given the above, we will build panels for Google, Apple, Microsoft, Amazon, Netflix

```
1 [panels,"buttons",width="80%"]
2 ----
3 panels {
4   panel {
5     link = "https://www.google.com"
6     label = "Google"
7   }
8   panel {
9     link = "https://www.apple.com"
10    label = "Apple"
11  }
12  panel {
13    link = "https://www.microsoft.com"
14    label = "Microsoft"
15  }
16  panel {
17    link = "https://www.amazon.com"
18    label = "Amazon"
19  }
20  panel {
21    link = "https://www.netflix.com"
22    label = "Netflix"
23  }
24 }
25 ----
```

Table 1. Panel Links

	Label	Link
 This Is Another Google	This Is Another Google	<a href="#">This Is Another Google</a>
 Apple	Apple	<a href="#">Apple</a>
 Microsoft	Microsoft	<a href="#">Microsoft</a>
 Amazon	Amazon	<a href="#">Amazon</a>
 Netflix	Netflix	<a href="#">Netflix</a>

The syntax is pretty small to make a panel of buttons.

### 3. Round Buttons

Similar to the buttons, we have a round object we can use.

```
[panels,buttons2]
----
panels{
  theme {
    colorMap{
      color("#ff6385")
      color("#36a3eb")
      color("#9966ff")
      color("#ffcf56")
      color("#4bc0c0")
      color("#FDCBF1")
    }
  }
  round {
    link = "https://www.google.com"
    label = "Google"
  }
  round {
    link = "https://www.apple.com"
    label = "Apple"
  }
  round {
    link = "https://www.microsoft.com"
    label = "Microsoft"
  }
  round {
    link = "https://www.amazon.com"
    label = "Amazon"
  }
  round {
    link = "https://www.netflix.com"
    label = "Netflix"
  }
}
----
```

Table 2. Panel Links

	Label	Link
Google	Google	<a href="#">Google</a>
Apple	Apple	<a href="#">Apple</a>
Microsoft	Microsoft	<a href="#">Microsoft</a>
Amazon	Amazon	<a href="#">Amazon</a>
Netflix	Netflix	<a href="#">Netflix</a>

## 4. Theming

**TIP** | New Attributes added, dropShadow & font

Table 3. Theme Guide

Item	Attribute	Value
layout	columns	<i>optional</i> , default: 3, max recommended 6
	groupBy	default Grouping.TITLE, others → .Grouping.TYPE, Grouping.AUTHOR, Grouping.DATE
	groupOrder	<i>optional</i> default Grouping.ASCENDING, others → Grouping.DECENDING

Item	Attribute	Value
		<pre> theme {   layout {     columns = 4     groupBy = Grouping.TITLE     groupOrder = GroupingOrder.ASCENDING   } } </pre>
colorMap	color	<i>optional</i>
		<pre> colorMap{   color("#ff6385")   color("#36a3eb")   color("#9966ff")   color("#ffcf56")   color("#4bc0c0")   color("#FDCBF1") } </pre>
legendOn	legend	boolean, <i>default true</i>
newWin		boolean, <i>default true</i>
dropShadow		number 0..9, <i>default 1</i>
font		set of font to use <pre> font = font {   color = "#000000"   font = "Arial, Helvetica, sans-serif"   size = "9pt"   decoration = "underline" } </pre>

## 4.1. Themed Example

Same Panel as above but with sorting ascending and different colors.

```

1 [panels,"round2"]
2 ----
3 panels {
4   theme {
5     layout {
6       columns = 4
7       groupBy = Grouping.TITLE
8       groupOrder = GroupingOrder.ASCENDING
9     }

```

```

10     font = font {
11         color = "#ffffff"
12     }
13     dropShadow = 2
14     colorMap{
15         color("#ff6385")
16         color("#36a3eb")
17         color("#9966ff")
18         color("#ffcf56")
19         color("#4bc0c0")
20         color("#FDCBF1")
21     }
22     newWin = false
23 }
24 panel {
25     link = "https://www.google.com"
26     label = "Google"
27 }
28 panel {
29     link = "https://www.apple.com"
30     label = "Apple"
31 }
32 panel {
33     link = "https://www.microsoft.com"
34     label = "Microsoft"
35 }
36 panel {
37     link = "https://www.amazon.com"
38     label = "Amazon"
39 }
40 panel {
41     link = "https://www.netflix.com"
42     label = "Netflix"
43 }
44 }
45 ----

```

Table 4. Panel Links

	Label	Link
	Google	<a href="https://www.google.com">Google</a>
	Apple	<a href="https://www.apple.com">Apple</a>
	Microsoft	<a href="https://www.microsoft.com">Microsoft</a>

	Label	Link
Amazon	Amazon	<a href="#">Amazon</a>
Netflix	Netflix	<a href="#">Netflix</a>

## 5. Small Panels

More informational panels can be created with small cards

```

1 panels {
2   theme {
3     layout {
4       columns=4
5       groupOrder = GroupingOrder.ASCENDING
6     }
7     font = font {
8       color = "#000000"
9     }
10    colorMap{
11      color("#ebb3d1")
12    }
13    legendOn = false
14    gradientStyle = DarkTheme
15  }
16  slim {
17    link = "https://www.google.com"
18    label = "Google"
19    type = "Advertising"
20    description = "Google is is an American multinational technology company
that specializes in Internet-related services and products "
21    author("Sergey Brin")
22    author("Larry Page")
23    date ="07/30/1998"
24  }
25  slim {
26    link = "https://www.apple.com"
27    label = "Apple"
28    type = "Personal Devices"
29    description = "Apple Inc. is an American multinational technology company
that specializes in consumer electronics, computer software and online services. "
30    author("Steve Jobs")
31    author("Steve Wozniak")
32    date ="01/30/1977"
33  }
34  slim {
35    link = "https://www.microsoft.com"
36    label = "Microsoft"
37    type = "Software"
38    description = "Microsoft Corporation is an American multinational
technology corporation which produces computer software, consumer electronics,

```

```

personal computers, and related services."
39     author("Bill Gates")
40 }
41 slim {
42     link = "https://www.amazon.com"
43     label = "Amazon"
44     type = "Super Store"
45     description = "Amazon.com, Inc. is an American multinational technology
company which focuses on e-commerce, cloud computing, digital streaming, and
artificial intelligence"
46     author("Jeff Bezos")
47 }
48 slim {
49     link = "https://www.netflix.com"
50     label = "Netflix"
51     type = "Movie Theater"
52     description = "Netflix, Inc. is an American subscription streaming service
and production company."
53     author("Reed")
54     author("Marc")
55 }
56 slim {
57     link = "https://www.facebook.com"
58     label = "Facebook"
59     type = "Social Butterfly"
60     description = "Facebook is an American online social media and social
networking service owned by Meta Platforms."
61     author("Mark Zuckerberg")
62 }
63 slim {
64     link = "https://www.instagram.com"
65     label = "Instagram"
66     type = "Beach"
67     description = "Instagram is an American photo and video sharing social
networking service. "
68     author("Kevin")
69     author("Mike")
70 }
71 slim {
72     link = "#[link-server]#[app]"
73     label = "DocOps.io"
74     type = "Documentation"
75     description = "Sharing documentation experience for developers to extend
with AsciiDoctor"
76     author("Steve Roach")
77     author("Ian Rose")
78 }
79 }

```
