DocOps.io AsciiDoctorJ Panels

Steve D Roach

Table of Contents

1. What are they?

AsciiDoctorJ Panels are a way of creating a panel that is clickable. Now you can create a set of panels that links to various contents, an alternative way of building links.

2. How to use?

AsciiDoctorJ Panels are built using a block processor. SO you will need to create blocks to visualize them. For the most part, the body of the panel is built using a Kotlin DSL.
2.1. First Example

The first type of panels is just panels with a list of panel objects. See example below

```
1  panels {
2      panel{
3          link = "http://wwww.google.com"
4          label = "Google Search"
5      }
6  }
```

Given the above, we will build panels for Google, Apple, Microsoft,Amazon, Netflix

```
1  [panels,"buttons"]
2  ----
3  panels {
4      panel {
5          link = "https://www.google.com"
6          label = "Google"
7      }
8      panel {
9          link = "https://www.apple.com"
10         label = "Apple"
11     }
12     panel {
13         link = "https://www.microsoft.com"
14         label = "Microsoft"
15     }
16     panel {
17         link = "https://www.amazon.com"
18         label = "Amazon"
19     }
20     panel {
21         link = "https://www.netflix.com"
22         label = "Netflix"
23     }
24 }
```

This Is Another Google

This Is Another Google	Apple	Microsoft
Amazon	Netflix	

- ▢ This Is Another Google
- ▢ Apple
- ▢ Microsoft
- ▢ Amazon
- ▢ Netflix

The syntax is pretty small to make a panel of buttons.
3. Round Buttons

Similar to the buttons we have a round object we can use.

```
[panels,buttons2]
----
panels{
    theme {
        colorMap{
            color("#ff6385")
            color("#36a3eb")
            color("#9966ff")
            color("#ffcf56")
            color("#4bc0c0")
            color("#FDCBF1")
        }
    }
    round {
        link = "https://www.google.com"
        label = "Google"
    }
    round {
        link = "https://www.apple.com"
        label = "Apple"
    }
    round {
        link = "https://www.microsoft.com"
        label = "Microsoft"
    }
    round {
        link = "https://www.amazon.com"
        label = "Amazon"
    }
    round {
        link = "https://www.netflix.com"
        label = "Netflix"
    }
```

```
}
----
```

Google

Apple

Microsoft

Amazon

Netflix

	Google		Microsoft
	Apple		Amazon
			Netflix

4. Theming

TIP New Attributes added, dropShadow & font

Table 1. Theme Guide

Item	Attribute	Value
layout	columns	*optional*, default: 3, max recommended 6
	groupBy	default Grouping.TITLE, others → .Grouping.TYPE, Grouping.AUTHOR, Grouping.DATE

Item	Attribute	Value
	groupOrder	*optional* default Grouping.ASCENDING, others → Grouping.DESCENDING

		``
		theme {
		    layout {
		        columns = 4
		        groupBy = Grouping.TITLE
		        groupOrder = GroupingOrder.ASCENDING
		    }
		}
		``

colorMap	color	*optional*

		``
		colorMap{
		    color("#ff6385")
		    color("#36a3eb")
		    color("#9966ff")
		    color("#ffcf56")
		    color("#4bc0c0")
		    color("#FDCBF1")
		}
		``

legendOn	legend	boolean, *default true*
newWin		boolean, *default true*
dropShadow		number 0..9, *default 1*

font		set of font to use
		
		``
		font = font {
		    color = "#000000"
		    font = "Arial, Helvetica, sans-serif"
		    size = "9pt"
		    decoration = "underline"
		}
		``

4.1. Themed Example

Same Panel as above but with sorting ascending and different colors.

```
1 [panels,"round2"]
2 ----
3 panels {
4     theme {
5         layout {
6             columns = 4
```
```
 7              groupBy = Grouping.TITLE
 8              groupOrder = GroupingOrder.ASCENDING
 9          }
10          font = font {
11              color = "#ffffff"
12          }
13          dropShadow = 2
14          colorMap{
15              color("#ff6385")
16              color("#36a3eb")
17              color("#9966ff")
18              color("#ffcf56")
19              color("#4bc0c0")
20              color("#FDCBF1")
21          }
22          newWin = false
23      }
24      panel {
25          link = "https://www.google.com"
26          label = "Google"
27      }
28      panel {
29          link = "https://www.apple.com"
30          label = "Apple"
31      }
32      panel {
33          link = "https://www.microsoft.com"
34          label = "Microsoft"
35      }
36      panel {
37          link = "https://www.amazon.com"
38          label = "Amazon"
39      }
40      panel {
41          link = "https://www.netflix.com"
42          label = "Netflix"
43      }
44 }
45 ----
```

| Amazon | Apple | Google | Microsoft |

| Netflix |

■ Amazon   ■ Google
■ Apple   ■ Microsoft
            ■ Netflix

5. Small Panels

More informational panels can be created with small cards

```
panels {
    theme {
        layout {
            columns=4
            groupOrder = GroupingOrder.ASCENDING
        }
        font = font {
            color = "#000000"
        }
        colorMap{
            color("#ebb3d1")
        }
        legendOn = false
        gradientStyle = DarkTheme
    }
    slim {
        link = "https://www.google.com"
        label = "Google"
        type = "Advertising"
        description = "Google is is an American multinational technology company
    that specializes in Internet-related services and products "
        author("Sergey Brin")
        author("Larry Page")
        date ="07/30/1998"
    }
    slim {
        link = "https://www.apple.com"
        label = "Apple"
        type = "Personal Devices"
        description = "Apple Inc. is an American multinational technology company
    that specializes in consumer electronics, computer software and online services. "
        author("Steve Jobs")
        author("Steve Wozniak")
        date ="01/30/1977"
    }
    slim {
        link = "https://www.microsoft.com"
        label = "Microsoft"
        type = "Software"
        description = "Microsoft Corporation is an American multinational
    technology corporation which produces computer software, consumer electronics,
    personal computers, and related services."
        author("Bill Gates")
    }
    slim {
        link = "https://www.amazon.com"
        label = "Amazon"
        type = "Super Store"
        description = "Amazon.com, Inc. is an American multinational technology
    company which focuses on e-commerce, cloud computing, digital streaming, and
```

```
                artificial intelligence"
46              author("Jeff Bezos")
47          }
48          slim {
49              link = "https://www.netflix.com"
50              label = "Netflix"
51              type = "Movie Theater"
52              description = "Netflix, Inc. is an American subscription streaming service
        and production company."
53              author("Reed")
54              author("Marc")
55          }
56          slim {
57              link = "https://www.facebook.com"
58              label = "Facebook"
59              type = "Social Butterfly"
60              description = "Facebook is an American online social media and social
        networking service owned by Meta Platforms."
61              author("Mark Zukerberg")
62          }
63          slim {
64              link = "https://www.instagram.com"
65              label = "Instagram"
66              type = "Beach"
67              description = "Instagram is an American photo and video sharing social
        networking service. "
68              author("Kevin")
69              author("Mike")
70          }
71          slim {
72              link = "#[link-server]#[app]"
73              label = "DocOps.io"
74              type = "Documentation"
75              description = "Sharing documentation experience for developers to extend
        with AsciiDoctor"
76              author("Steve Roach")
77              author("Ian Rose")
78          }
79  }

63            type = "Beach"
64            description = "Instagram is an American photo and video sharing social
   networking service founded by Kevin Systrom and Mike Krieger. "
65        }
66    }
67    ----
```

Search

07/30/1998
Google is is an American multinational
technology company that specializes in
Internet-related services and products

Personal Devices

01/30/1977
Apple Inc. is an American multinational
technology company that specializes in
consumer electronics, computer software and
online services.

Software

Microsoft Corporation is an American
multinational technology corporation which
produces computer software, consumer
electronics, personal computers, and related
services.

Super Store

Amazon.com, Inc. is an American multinational
technology company which focuses on
e-commerce, cloud computing, digital
streaming, and artificial intelligence

Movie Theater

Netflix, Inc. is an American subscription
streaming service and production company.

Social Butterfly

Facebook is an American online social media and
social networking service owned by Meta
Platforms.

Beach

Instagram is an American photo and video sharing
social networking service founded by Kevin
Systrom and Mike Krieger.

Table 3. Large Cards Guide

Item	Attribute	Notes
large	type	A way to categorize the card by in case you would like to group or sort by, see the Theme table for sorting and grouping
	description	more information on the content behind the link
	date	date to display content attributed to link

7. Generate Color Map Utility

```
<div class='exampleblock'>
    <div class='content'>
        <div class='literalblock'>
            <div class='content' id="colormap"></div>
        </div>
    </div>
</div>
<button name="Generate" value="Generate" onclick="genColors();">Create Color
Palette</button>
<input type="number" id="points" name="points" value="20" step="1">
<script>
function getColor(){
  return hslToHex(360 * Math.random(), (25 + 70 * Math.random()) , (75 + 10 *
Math.random()) );
}
function hslToHex(h, s, l) {
  l /= 100;
  const a = s * Math.min(l, 1 - l) / 100;
  const f = n => {
    const k = (n + h / 30) % 12;
    const color = l - a * Math.max(Math.min(k - 3, 9 - k, 1), -1);
    return Math.round(255 * color).toString(16).padStart(2, '0');   // convert to Hex and
prefix "0" if needed
  };
  return `#${f(0)}${f(8)}${f(4)}`;
}
function genColors() {
    let str = "colorMap {\n";
    let elem = document.getElementById("colormap");
    elem.innerHTML = '';
    var pts = document.getElementById("points");
    var count = pts.value;
    for( let i = count; i--;) {
      let item = document.createElement('div');
      var color = document.createElement('div');
      let clr = getColor();
      item.style.cssText = `
        display:inline-block;
        padding: 2em;
```

```
        margin:5px;
        border-radius:50%;
        background: ${clr};
    `

        item.innerText = clr;
        str +=  '        color(\"'+ clr + '\")\n';
        elem.appendChild(item);
    }
    str += "}"
    color.innerText = str
    var ppre = document.createElement("pre");
    var pcode = document.createElement("code");
    pcode.className = 'language-kotlin';
    ppre.appendChild(pcode);
    pcode.innerText = str;

    elem.appendChild(ppre);
}
</script>
```

- A simple Utility to generate a pastel themed the colormap for your convenience.

8. Badges/Shield

8.1. Syntax

```
